JOINT PHOTOGRAPHIC INTELLIGENCE BRIEF

NAVY - CIA

INSTALLATION:	Possible Nuclear Submarine	BRIEF NO.:	JB-3-58
LOCATION:	Polyarnyy Harbor	DATE:	16 January 1958
B.E. NUMBER:	None	LAT.:	69°12'21"N
WAC NUMBER:	51	LONG.:	33°28'48"E 25X1D

REFERENCE:

ATMP: 0051-0030-25A (2nd Ed., Sept 54)

REQUIREMENT HTA/SI/R1-58: Describe a possible nuclear submarine berthed on the north side of Polyarnyy harbor and isolated from other submarines which are berthed at the Polarnyy Naval Base, as shown in enclosure 2 to Navy Photo Interpretation Report NT-PD 0001.

25X1D

REMARKS

25X1D

The submarine berthed on the north side of Polyarnyy harbor has an approximate length of [REDACTED] and a maximum beam of [REDACTED]. It appears to be a modernized "K" class. The conning tower appears to have been streamlined by removal of the gun tubs. An unidentified object approximately [REDACTED] in diameter is located on the deck about 40 feet from the bow. Another object about 70 feet from the stern may be an antenna mast.
